## Summary of Experience

Ainhoa joined the practice in 2007, was made an Associate in 2014 and a Senior Associate in 2016.

Her first role at RSHP was on the detail design of 3 World Trade Center. She then led the design and coordination of the public realm and one of the blocks which make up NEO Bankside, a residential project on the south bank of the Thames in London. She followed this by leading the RSHP team that successfully delivered Buildings 6 and 7 in our award-winning Chiswick Park business park in West London.

Ainhoa has gone on to contribute greatly to many diverse projects, including the extension to Geneva Airport aile\_EST, One Monte Carlo, and LSE Centre Building, which she led through the Detail Design stages. Recently, she has prepared successful planning submissions for a number of schemes in London and is currently part of a large team working on the pre-planning stages of the extension to the British Library.

In over ten years in the office, her ability to work within or lead multidisciplinary teams, combined with an excellent eye for detail and coordination of complex issues, has been key to the delivery of many projects.
