**2012** Rogers Stirk Harbour + Partners  
**2009 - 12** John McAslan + Partners

## Summary of Experience

Mark is RSHP's Social Value and Inclusive Design Champion and is currently the project architect for the Hammersmith & Fulham Civic Campus, a 'ruthlessly inclusive' zero-harm scheme which will provide new civic offices, residential accommodation, a cinema, shops and restaurants and reinvent the concept of the Town Hall to make it exciting and relevant for the people it serves.

Mark also co-led the planning consent for two hotels on the former Hammersmith & Fulham Magistrates Court site and was the project lead for public realm improvements in the Hammersmith Business Improvement District, (BID).

Prior to this, Mark was the senior architect for Thames Wharf Redevelopment, where he gained planning approval for a 100,000 sq. ft mixed-use development of luxury apartments, restaurants and offices.

He was also the senior architect for a masterplan project in Chongqing, China where he delivered the phase 1 detail design of the project for two residential towers.

In addition to his work in Hammersmith, Mark is currently overseeing capacity on the delivery of a number of housing projects, including modular units in Lewisham, London.
