

# Steve Martin

## Steve instils the vision within the team to make the design a reality

Adrian Davies, Pre Construction Leader,  
Laing O'Rourke

### Qualifications

BA Arch, RIBA, ARB

### Education

**1975 - 80** University of Toronto, Canada

### Practice

**2011** Associate Partner, Rogers Stirk Harbour + Partners (RSHP)  
**2000 - 10** Associate, Rogers Stirk Harbour + Partners  
**1990** Richard Rogers Partnership  
**1984 - 90** Foster and Partners  
**1982 - 84** Nicholas Lacey

### Summary of Experience

Steve joined Rogers Stirk Harbour + Partners, when it was the Richard Rogers Partnership, in 1990 and was made an Associate Partner in 2011.

Steve worked on Terminal 5 Heathrow for almost ten years and played an intrinsic role in the successful competition for Barajas Airport, Madrid. This wealth of experience has enabled him to become well-versed in the specifics of large, multi-disciplinary teams and complex projects.

He has considerable experience in the co-ordination of multifaceted projects from concept design to construction detailing and is currently working on Melbourne Metro, a project comprising twin nine-kilometre tunnels and five new underground stations.

Prior to this, Steve led a large team on RSHP's work at IQL, International Quarter London in Stratford, a new business quarter where RSHP has designed several major commercial buildings for lease. These are designed around the core values of promoting health and wellbeing in the workplace and RSHP has created a design framework that enables buildings of different sizes and configurations to be created using the same components.

Steve was also the project architect for the Cancer Centre at Guy's, where he worked closely with the contractor-led team to win the design competition. He remained onboard throughout to deliver a new 20,000 m<sup>2</sup> oncology building that brings all services and treatment paths under one roof for Guys and St Thomas's Hospital. Prior to that, Steve was project architect on site at the Millennium Dome, Greenwich; project architect for Riverside South; a major office development in Canary Wharf for an international bank, and also a 635,000 m<sup>2</sup> mixed-use scheme in central Seoul - Parc 1 Yeouido, which included a retail complex, two office towers and a 400-room hotel. This included one year running the project from the site office in Seoul.

## Key Projects

<b>2018 -</b>	Oriel, Health, competition, London, UK
<b>2017 -</b>	Melbourne Metro, Transport and Infrastructure, Australia
<b>2015-19</b>	The International Spy Museum, Cultural, Washington DC, USA
<b>2014 -</b>	International Quarter, Office, London, UK
<b>2013 -</b>	Estacion de Autobuses y Intercambiador, Transport and Infrastructure, Caracas, Venezuela
<b>2012 -</b>	Atrio, Office, Bogota, Colombia
<b>2010 - 16</b>	Guy's Cancer Centre, Health, London, UK
<b>2010 -</b>	St Lawrence Market, Civic/Public Toronto, Canada
<b>2009 - 10</b>	Riverside South, Canary Wharf, Office London, UK
<b>2006 - 09</b>	Parc 1 Yeouido, Mixed-use, Seoul, South Korea
<b>2005</b>	Buildings Concept Design, La Muratella, Rome, Italy
	Brescia Masterplan, competition, Italy
<b>2004 - 05</b>	La Muratella Masterplan, Rome, Italy
	Verona Adige City Masterplan, Italy
	OBS-Moscow, Office, competition, Moscow, Russia
<b>1999-16</b>	Chiswick Park, Office, London, UK
